New Revised Edition Book “Acu-Zone Therapy” Seminar
~Innovative treatment to maximize effect with minimal needle~
Los Angeles, CA: March 2&3, 2019

This course has been “pending” approval by the California Acupuncture Board, CEP#1372, for 15.5 hours of Continuing education. (NCCAOM, Category 1 CA)

Presented by Dr. Masaaki Nakano, DOM

What is “Acu-Zone Therapy?”
Acu-Zone Therapy is a Palpation-Based Japanese Acupuncture method that achieves rapid clinical results for pain and internal conditions, treating both root and branch aspects of disorders simultaneously. Based on a deep understanding of the Acupuncture/Channel System, Dermatomes, the Autonomic Nervous System, the Brain Stem and Cranial Nerve functions, this treatment method divides the body into Zones that are influenced by 26 specific acupuncture points. We use these acupuncture points alone to achieve its quick and effective results, commonly applying no more than 7 needles per treatment to provide a simple and clear healing message that the body can understand. The method also utilizes a gentle and unique “Synergetic Qi & Touch” needling technique that is based on the Japanese Hado/Resonance principle.

Which practitioners/students will benefit from attending Dr. Nakano’s courses?
• Those wishing to maximize their clinical results while minimizing acupuncture needles used
• Practitioners and students wishing to learn skills to achieve rapid and effective pain relief in their patients/clients (over 90% pain relief in a single treatment).
• Practitioners and students wishing to apply intention in their treatments with a unique needling technique.
• Those wanting to simplify their process of acupoint selection
• Practitioners and students wishing to learn palpation methods as a major form of diagnosis

“It was three years ago that I invited Dr. Nakano to a seminar for overseas acupuncturists hosted in Osaka and I saw the actual treatment for the first time. I remember being deeply impressed by the way of his treatment takes the patient's tender points beautifully even in front of my eyes. Even now those who participated at that time will not forget. They were pleased with their shining eyes.”
By Master Kiiko Matsumoto.
